

**February 25, 2021**

Hopefully, this Lenten season has gotten off to a good start for you. What are some good practices that you have been doing so far? Have you said some extra prayers for people that you care about? Give thanks to God for all the good that you have started. If you have not been very successful so far, turn to God to ask for his guidance, and I'm certain God will give you the help you need.

God wants to lead and guide you throughout this Lenten Season. He wants this Lenten Season to be a time of blessings for you and all your loved ones. During our first week of Lent we were urged to believe in the Gospel, and journey to where God leads us. As we move on toward the rest of the Lenten season, we hope to continue to grow in greater love of God. May this Lenten season transform us, and help us to form the Kingdom that Jesus came to build.

Many of us Presentation Sisters will be moving to our new home, "Presentation Place", this coming week. I will miss being near to the College, but several people tell me **I might really like it**. I have learned in my life that when God leads me to something He chose for me, it is usually something very good. So I am going to trust that God will make it a good experience for me. I will continue to send you these "Lighting the Way" reflections each week.

**May we all grow in God's love!**
